Re: Consultant On-Demand Agreement for Flood Warning Website Development for the period March 1, 2008 through February 28, 2010
Peridian Group, Inc.

Policy Issue: City policy requires Governing Body approval of Agreements when consideration exceeds \$50,000.

Recommendation: Staff recommends that the City authorize the Consultant On-Demand Agreement for Flood Warning Website Development for the period March 1, 2008 through February 28, 2010, with Peridian Group, Inc. for a total amount not to exceed \$100,000.

Background: Peridian will continue to support and expand the feature set of the StormWATCH Flood Warning Website with optimization of existing pages and the addition of pages to support new feature requests. They will integrate forecasting output from AVISO FS into the StormWATCH website, support and/or maintain the City's servers and databases that host the StormWATCH website and the AVISO FS software. Peridian will also assist the City in planning and integrating a failsafe/redundant flood warning system.

Budget Impact: The funding for this project will be reimbursed by the Johnson County SMAC program.

Attachment: Consultant On-Demand Agreement.
