Introduction

Addendum #1 is issued on Thursday, December 22nd to provide response to questions asked by an interested party.

Question and Response #1

The question received by City staff was “What is the initial term of the agreement the City wants to enter into?”

The City is interested in entering into an initial term of two (2) years with two (2) one (1) year renewal periods at the option of the City. Unit prices will remain firm for the renewal periods. However, the Contractor may request an adjustment to the Unit Price no less than 60 days before the start of any renewal period in recognition of possible escalations in diesel fuel or labor costs beyond which could have been anticipated at the time of Bid. Any price increase during a renewal period shall be at the sole option and discretion of the City.

Question and Response #2

The question received by City staff was “Looking at Appendix B of the RFP, it only has one column to enter the rates per container size, but many containers have different frequencies of collection even though they are the same size. Do you want the pricing to be on a per lift basis or would you like a price matrix that shows all sizes and frequency options?”

If applicable, the City would prefer a price matrix that includes all sizes and frequency options for the types of collection listed in Appendix B of the Request for Proposals. This was noted in the footnotes in Appendix B.

Interpretations, Modifications and Addenda

All questions regarding the RFP and Addendums should be directed in writing to Management Intern Kaitlyn Mura at kaitlyn.mura@opkansas.org If necessary, interpretations or clarifications in response to questions received will be made by issuance of an “Addendum” and posted on the City website at www.opkansas.org as soon as possible but no later than January 6, 2022.
